Implementation Submission Statement Template

The California State Board of Pharmacy is interested in developing agendas and discussion items for the E-Pedigree Work Group Meetings around items with value to the industry.

Please use the following template headings to provide a description of issues, problems or preferred solutions on implementation issues involving California's electronic pedigree requirements. These statements should be submitted to the board in advance of an E-Pedigree meeting, conforming to the template below:

- Issue/Topic:
- Submitted by:
- Background: Historical overview/framework of current practices in the industry, what are the different scenarios in which this practice or subject area has arisen already, what are the processes employed to date, what members of the supply chain are involved?
- Challenge presented by timely compliance with California's law:
- Frequency or prevalence of this practice or subject area:
- A specific discussion of the costs of such implementation, on as many variables as possible (per-unit, per-store, per-facility, per-company)
- Desired solution:
- Without the desired solution, what is the potential impact?
- Contact information and date:

Note: it is anticipated that these presentations will come, at least initially, from industry associations or other representative associations, so as to capture larger quantities of data or experience and focus the discussions on systemic rather than individual solutions. It is also anticipated that competing concerns of different industry players may need to be suspended to advance the presentations.

Please submit to Virginia Herold at the above address. Thank you.
